SETUP AND CHANGEOVERS IN LESS THAN A MINUTE IS IDEAL FOR SHORT AND LONG PRODUCTION RUNS

PROFITABLE

ONE PERSON CAN QUADRUPLE PRODUCTION PRODUCTIVITY

FRIENDLY

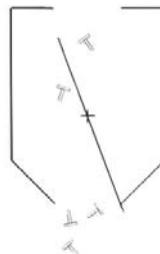

PREPROGRAMMED PRODUCT

The strikingly modern and efficient design of the Delta Model LCM22 Counting Machine was derived from Delta's vast experience in the electronic counting field. Simplicity, easy change-over, accuracy, dependability and high speed operation were the prime requirements in the development of this "cutting edge" system. The Model LCM22 features Allen Bradley PLC Controls with PanelView™ touch screen interface. Added features include pre-set product calibration for unparalleled speed in changeover, operator prompting for set-up, adjustments and machine diagnostics.

DELTA EXCLUSIVE FEATURES

OFFERING THE LATEST ADVANCES IN PRODUCT FLOW, ACCURACY, AND CONTINUOUS HI-SPEED

BATCHING

DELTA'S MODEL LCM22 OFFERS **CONTINUOUS** OR **INTERMITTENT** HI-SPEED COUNTING AND PACKAGING

DELTA'S WIDE-BEAM DETECTION SYSTEM ACCURATELY COUNTS REGULAR OR ODD-SHAPED PARTS WITH HOLES EVEN WITHOUT TOTAL SEPARATION AS THEY PASS THROUGH THE DETECTOR.
