

DeltaWeigher Model LWSK

Standard Features

7-10 cu-ft, low-level bulk stoker with bucket elevator to deliver bulk product to the weighing system

9" wide feeder tray with dribble tray. Two-stage batcher / collector for continuous feed at high speed

Allen-Bradley PLC based Control Instrument with PanelView touchscreen

10 ft. long box conveyor, adjustable to various split keg boxes and automotive returnables. Platform loadcell.

Electric Cabinet Lift For easy adjustment when changing over between different height boxes

The rugged LWSK fills split keg quantities at speeds of 4 to 7 boxes per minute. The LWSK can also be interfaced with carton erectors, closers, and labelers for a complete packaging solution.
